

UXGym
BY UX ANUDEEP

AI UX Product Design *2026 Mega Launch*

*The right mentorship you always needed
to make you a designer recruiters are desperate to hire for.*

A proven path to land **25 LPA+** AI UX Design roles.

BY ANUDEEP

UX Anudeep • 6,000+ designers mentored

A 6-MONTH COHORT

4 phases • 8 athletic tracks • 4 real projects

OFFICIAL  Figma Education Partner | Pro plan included • ₹15,000 value

FROM YOUR APPLICATIONS

This is what you wrote when you applied.

"

I really feel stuck and in a dead-end. I feel low due to this.

"

When someone asks me why I made a certain decision, I still struggle to explain it properly.

"

With the current job market, the rise of AI, and repeated rejections, it has created a lot of self-doubt.

"

I feel like I'm lacking something as a designer. I don't know what's stopping me.

"

My biggest challenge is self doubt, it often stops me from taking the first step.

"

I don't want to continue to make the same mistakes or guess what I am doing.

"

There have been moments where I almost gave up completely.

Every line above is a direct quote from one of your applications.

This program is for you.

WHAT I ALREADY BELIEVE ABOUT YOU

You are already a designer.

Nobody gave you the chance to realise it.

6 months of the right drills and projects in AI UX will make you so powerful that you will **reject the extra offers flooding at you.**

INSIDE THIS BROCHURE

3 Three secrets nobody told you about getting hired.

Plus a bonus secret most of the industry hasn't figured out yet.

01

Why now is the rarest moment.

02

What recruiters actually want.

03

How designers become visible.

The bonus most don't see.

01

WHY NOW IS THE RAREST MOMENT

You are very early. The opportunity is wide open.

POPULAR MISBELIEF

Everyone is already doing AI. I have missed the bus.

THE TRUTH

Less than 1% of the world is actually building with AI.

You are very early. The opportunity is wide open.

Every product is becoming an AI product.

Every product team. Every company. One race.

WhatsApp

Notion

Figma

Uber

Swiggy

Zomato

Cred

Razorpay

LinkedIn

Spotify

More opportunities. Fewer people who can deliver.

You become rare by doing rare work. Many designers use AI tools ... few design **for** AI products. The overlap is where the hunt is. **Build real AI products → showcase publicly → become the profile recruiters chase.**

02

WHAT RECRUITERS ACTUALLY WANT

They aren't looking for a portfolio. They're looking for a **designer identity**.

POPULAR MISBELIEF

A good portfolio template will get me hired.

THE TRUTH

Recruiters aren't looking for portfolios ... they're looking for designer identities.

They don't want research **in** your portfolio.
They want proof you can do research **in** **their company**.

Build the identity. The portfolio follows.

~~A designer who took a course.~~

Months 1–2 • A designer who **did a project.**

~~A designer who copied templates.~~

Months 3–4 • A designer who **led a project.**

~~A designer who applies and waits.~~

Months 5–6 • A designer recruiters **chase.**

Case in point ... a junior designer from a past Gym. Before: a graphic designer with low UX experience, stuck. After: hired at a top tech company. Same projects. Different way to write the case study. A completely revamped designer. **They hired him because he became a good designer ... and his portfolio showed it.**

03

HOW DESIGNERS BECOME VISIBLE

You're a good designer. You just don't know how to be **found**.

POPULAR MISBELIEF

Nobody is looking at my portfolio. I'm not good at design.

THE TRUTH

You are a good designer. You just don't know how to be visible.

They didn't apply harder. They became visible ... in the right places, the right way.

REAL STUDENT OUTCOMES ... NONE OF THEM APPLIED HARDER

10–20 LPA

ANALYST →
RECRUITERS

ANIMATOR → AI
INTERNSHIP
SWITCH

Recruiters don't hunt the way you think.

A recruiter's journey has four stages. You apply at **Search**. They hire at **Hunt**. Plant yourself at the Hunt stage and the equation flips.

Three pillars of visibility. A profile that magnetises. Work that proves how you think. Showing up where recruiters actually look.

BONUS SECRET • THE BIGGEST OPPORTUNITY

The industry doesn't have clarity. They are figuring it out.

Designers go from ambiguity to clarity ... that's the whole job. Right now the biggest ambiguity in the world is AI. Nobody fully knows how to design for it. **If you can ... and you can show that ... you become the rarest designer in the room.**

WANT TO BECOME THIS PERSON?

Six months from now you'll be:

- ✓ Rejecting offers ... overflowing with 20 LPA+ choices
- ✓ Telling case studies casually, like a story
- ✓ Performing in interviews without prep panic
- ✓ Building real AI products with prompts and code
- ✓ Confident in core UX foundations ... not faking
- ✓ Designing experiences that move real business metrics

That is what we are going to build, together, in six months.

— INTRODUCING THE PROGRAM

UX Gym

Blaze.

A six-month training ground ...
forged for the AI era.

Where the right drills, the right projects, and the right mentor turn an ambitious learner into a designer the market hunts for.

FOUNDATION

Stop following blind templates. Start thinking like a UX designer.

BREADTH

Skills expand across UX ... research to AI, end to end.

DEPTH

Stop practicing. Start delivering like you're hired.

THE 6-MONTH JOURNEY • PHASE 01 OF 04

• PHASE 01

Interaction Design Mastery.

Visual craft, UI depth, and the interaction layer • the foundation every product designer is built on.

OUTCOME
AI-powered design project

This is where you build the craft of screens • **visual design, UI systems, and the interaction layer that makes products feel alive.** Daily reps until polished, production-level work feels automatic.

🕒 FOCUS OF THE DRILLS

Production-speed craft, every day.

Colour, type, hierarchy, Gestalt, component design, and Figma at production speed. Small daily reps that **compound** • so by the end, polished UI feels effortless.

📁 FOCUS OF THE PROJECT

An AI-powered design project.

Across UI, visual and interaction design, from brief to a refined experience. The outcome is a portfolio piece that **stops a recruiter mid-scroll.**

BY THE END OF PHASE 01

Design screens like a real product designer.

VISUAL DESIGN

- Colour with intention and emotion
- Type, hierarchy and contrast
- Depth, light and material
- Harmonious palettes for any brief

UI DESIGN

- Layouts, grids, spacing, alignment
- Gestalt principles, fluently
- Component design
- Polished, production-level screens

INTERACTION DESIGN

- The vocabulary of interaction
- Feedback for every state
- Motion to communicate intent
- State machines and connected behaviour

TOOLS & SYSTEMS

- Figma at production speed
- Auto Layout, responsive and scalable
- Components, variants and styles
- Design systems, tokens and IA

PROTOTYPING & AI

- Connected, end-to-end prototypes
- Realistic flows that feel real
- AI design tools in your workflow
- Generate UI from prompts, refine to shipped work

THE 6-MONTH JOURNEY • PHASE 02 OF 04

• PHASE 02

UX

Design Mastery.

The identity of a designer • the eye, the heart, the brain, and the hand.

02

OUTCOME
**Hireable
UX case study**

This is where you build the identity of a UX designer • **how you see, feel, think and build**. You turn business briefs into journey problems and journeys into shipped screens.

🎯 FOCUS OF THE DRILLS

See, think and build like a designer.

UX laws and lenses, journeys and flows, primary and secondary research, interviews, personas and usability testing • practised on real products until it's second nature.

📁 FOCUS OF THE PROJECT

A real UX design project.

A real product, a real problem • from **research** → **journey** → **wireframe** → **high-fidelity UI** → **written case study**. A hireable project a recruiter can take seriously.

BY THE END OF PHASE 02

Think and lead like a real UX designer.

EYE OF THE DESIGNER

- See the world like a designer
- UX principles and UX laws
- Appreciate and decode existing designs

HEART OF THE DESIGNER

- Journeys, flows, experience and emotion
- Build your own UX process
- Business, product and stakeholders
- Turn briefs into journey problems

BRAIN OF THE DESIGNER

- Primary and secondary research
- User interviews that surface insight
- Personas, done properly
- Usability testing

HAND OF THE DESIGNER

- Ideate insights into screens
- Sketches and wireframes into UI
- Build screens and flows
- Solve the problem inside the product

THE 6-MONTH JOURNEY • PHASE 03 OF 04

• PHASE 03

Interviews Mastery.

Turn a strong portfolio into offers • the part most courses skip.

Recruiters hire designer identities, not portfolios. This is where you become **undeniable** at every stage of the recruiter's journey • search, scan, scrutiny and the hunt.

🕒 FOCUS OF THE DRILLS

Be ready at every round.

Case studies in five formats, a portfolio that feels like you, and the recruiter journey mapped end to end • rehearsed until it's **second nature**.

📁 FOCUS OF THE PROJECT

A portfolio that is unmistakably you.

Your projects repackaged through the lens of a real designer, plus a take-home assignment turned into a **portfolio-grade piece**.

BY THE END OF PHASE 03

Walk into any room **and own it.**

FIVE CASE STUDIES

- Long-form
- Video
- Verbal
- Presentation
- Micro

A PORTFOLIO THAT IS YOU

- Not a template everyone submits
- Your taste, thinking and story
- A portfolio that feels like you

THE RECRUITER JOURNEY

- How a recruiter actually moves
- Ready at search, scan, scrutiny, hunt
- Every asset prepared around it

EVERY ROUND

- Phone screen and portfolio round
- Technical round
- Offer negotiation
- Offer shopping

LINKEDIN & TAKE-HOME

- Post so recruiters come to you
- Inbound versus outbound
- Approach any take-home brief
- Turn it into portfolio-grade work

THE 6-MONTH JOURNEY • PHASE 04 OF 04

• PHASE 04

AI UX**Design Mastery.**

Design FOR AI, not just with it • the rarest profile on the market.

OUTCOME
**AI product
flagship piece**

Where you become an **AI UX Product Designer** • one who can design AI products with confidence, intention and craft. Two months that close the loop on six.

🎯 FOCUS OF THE DRILLS

Design for AI, daily.

Prompt basics done right, vibe coding, AI product classification, and the interaction patterns unique to **agentic, conversational and generative** products.

📁 FOCUS OF THE PROJECT

An AI UX product, end to end.

A real use case from concept to finished design • prompts, journeys, states and edges, all crafted by you. A piece **almost no one walks into interviews with yet.**

BY THE END OF PHASE 04

Ship AI products almost no one else can.**AI FOUNDATIONS**

- Prompt basics, done right
- Vibe coding
- AI in your real daily workflow

DESIGNING FOR AI

- Design for AI, not just with it
- Agentic, conversational, generative
- AI capabilities and their limits

AI UX METHODS

- AI UX journey mapping
- AI interactions and patterns
- Human behaviour inside AI products

TRUST & SAFETY

- Guardrails in AI products
- Transparency
- Designing responsibly

ALL RUNNING IN PARALLEL • EVERY SINGLE DAY • 6 MONTHS

Eight athletic tracks.

The phases are the curriculum. The tracks are the daily training. Both run together ... every day, all six months.

01

Group Drills

Gym-wide briefs.
Diverse perspectives. The synergy of training together.

02

Individual Drills

Targeted skill development.
Hands-on practice.
Portfolio-worthy outcomes.

03

Live Calls & Workshops *with Anudeep.*

Intense weekend sessions with direct guidance from Anudeep ... the place where craft, critique, and clarity all happen face-to-face.

04

Course Videos & Materials

Focused learning.
Structured pathway.
Practical application.

05

Skill Showcase

Presentation skills.
Design storytelling.
Constructive critique.

06

A like-minded, *enthusiastic community.*

A peer network of ambitious designers ... knowledge sharing, accountability partners, and the energy that keeps you going through six months.

07

Portfolio Project *track.*

The centrepiece. A real, end-to-end project per phase ... case-studied, refined, and built to stop recruiters mid-scroll.

08

Recognition & *rewards.*

Sustained motivation. Professional credibility.
Personal recommendations from Anudeep that carry weight where it counts.

Every track is designed to make you visible ... to peers, to recruiters, to the version of yourself that's currently hiding.

FEATURES OF THE UX GYM BLAZE

The UX Gym Offerings.

THE GYM CORE

**A six-month training ground.
Four phases. Eight tracks.**

Foundation, Interaction Mastery, AI Product Design ... taught in sequence and practiced every single day across eight athletic tracks running in parallel.

REAL PROJECTS

**4 portfolio-
grade projects.**

One per phase, end-to-end ... research, journeys, UI, case study. Recruiter-ready by month six.

LIVE ACCESS

**Weekly live Q&A
with Anudeep.**

Show up with wins, blockers and questions ... every week, live.

DAILY TRAINING

**Individual
drills library.**

A progressive practice catalogue you work through alone ... designed to build fluency, not just knowledge.

GROUP CRAFT

**Group drills ·
Portfolio & case
study tracks.**

Three workflow tracks running together so the work stays alive ... peer pressure, shared briefs, real momentum.

CURRICULUM

Full subject library.

UX, research, UI, visual, IA, AI UX, Vibe Coding, Agentic UX, Generative UI ... all subjects, fully unlocked.

COMMUNITY

**Premium Discord
... daily presence.**

A daily room of designers training alongside you. Anudeep present, peers active, work in motion.

— UX • GYM • BLAZE —

Personalised *Attention.*

Three offerings that put Anudeep's eyes on **your** work ... your roadmap, your portfolio, your projects. The Gym is the engine; this track is the steering wheel.

01

Personalised Roadmap from Anudeep

OFFERING • 01

Anudeep studies your background, your fundamental qualities, your strengths and your insecurities ... and designs a six-month roadmap that works exactly for you.

- Built on your background, goals and gaps
- Tuned to your strengths ... and your insecurities
- A personal six-month plan, written for you
- Sets the shape of your six months

02

Portfolio Reviews with Anudeep

OFFERING • 02

His eyes on your portfolio, screen by screen ... until the work passes the recruiter scan.

- Project-by-project review with Anudeep
- Recruiter-grade narrative & visual feedback
- Iterations until the portfolio lands
- Built around your real projects

03

Personalised Project Feedback

OFFERING • 03

Detailed written feedback on every phase project you ship ... the kind only Anudeep can give.

- Per-project written feedback from Anudeep
- Frame-level UX, IxD and visual notes
- Direction for the next iteration, not just critique
- On every project you ship in the Gym

Personalised Attention is what changes a strong Gym experience into a personal one ... Anudeep's eyes, voice and craft on your work, across the full six months.

— UX · GYM · BLAZE —

Failure-Proof Track.

Three offerings designed so you cannot fall through the cracks ... the dedicated, scheduled, one-on-one work that keeps your six months on track and your interviews sharp.

01 1:1 Bi-Weekly Progress Check-ins

OFFERING · 01

A scheduled one-on-one call with Anudeep, every two weeks, for six months. Momentum, kept alive.

- 1:1 dedicated calls, fortnightly
- Course-correct your work in real time
- Direct accountability with Anudeep
- Twelve scheduled calls across six months

02 Interview Dedicated Call Support

OFFERING · 02

A dedicated call with Anudeep before any real interview ... strategy, prep, calm.

- On-demand, scheduled call before your interview
- Live prep on company, role and case study angles
- Anudeep on chat through the interview window
- Unlimited across the six months

03 3 Dedicated 1:1 Calls with Anudeep

OFFERING · 03

Three dedicated 1:1 calls with Anudeep across the six months ... to walk through your roadmap, revise it as you grow, and lock in your focus areas.

- Three 1:1 calls scheduled across the six months
- Roadmap walk-through and revisions, live
- Focus areas decided together, with Anudeep
- Re-tune the plan as your shape changes

Three offerings that turn UX Gym Blaze into a six-month engine that catches you before you fall ... and prepares you for every interview that lands.

THE WHOLE EXPERIENCE • EVERYTHING IN ONE FRAME

Six months. One transformation.

The Gym engine, Anudeep on your work, and the dedicated 1:1 layer ... all stacked into one six-month arc designed to change the shape of you as a designer.

15

CAPABILITIES,
STACKED

6

MONTHS
THAT
COMPOUND
FOR 30
YEARS

4

PORTFOLIO-
GRADE REAL
PROJECTS

WITH
ANUDEEP,
DEDICATED

01 THE GYM ENGINE

Where the transformation happens.

- 4 phases • Foundation → Mastery → AI
- 4 real, portfolio-grade projects
- Individual + group drills library
- Full subject library • UX, AI, Vibe
- Premium Discord • daily presence
- 8 athletic tracks, every day
- Weekly Q&A with Anudeep
- Portfolio & case study tracks
- Workshops, hackathons, meetups

The engine. Same for everyone in the Gym.

02 PERSONALISED ATTENTION

Anudeep's eyes on your work.

OFFERING • 01
Personalised Roadmap from Anudeep

OFFERING • 02
Portfolio Reviews with Anudeep

OFFERING • 03
Personalised Project Feedback

A strong Gym, made personal.

03 THE FAILURE-PROOF TRACK

The dedicated 1:1 layer.

OFFERING • 01
1:1 Bi-Weekly Progress Check-ins

OFFERING • 02
Interview Dedicated Call Support

OFFERING • 03
3 Dedicated 1:1 Calls with Anudeep

Designed so you cannot fall through the cracks.

Figma Education plan, all Pro features, free for 9 months. Included for every seat • ₹15,000 value.

One Gym. Three mentorship phases. Six months that change the shape of you as a designer.

UX GYM BLAZE
2026

A NOTE BEFORE THE TIERS

The Gym takes you the distance.

Closer mentorship decides how *far* you go inside it.

CORE • OPEN SEATS

The full six-month Gym.

Four phases. Eight tracks. Four real projects. The foundation every designer in the Gym builds on.

PREMIUM • BY INTERVIEW

Gym + Personalised Attention track.

Everything in Core, plus Anudeep's eyes on your roadmap, portfolio and every project you ship.

ELITE • BY INTERVIEW

Gym + Personalised Attention track + Failure-Proof track.

Everything Premium has, plus the 1:1 layer ... fortnightly check-ins, dedicated interview calls, and roadmap revisions.

The Gym is the same in all three. The mentorship around it is what changes.

WHAT THE MARKET SELLS VS WHAT YOU GET

Four programs. One stack.

Each program is a complete course the market sells on its own. In the Gym, all four are **clubbed into one**.

THE MARKET SELLS

UI Design Course · ₹1,00,000

WHAT YOU GET

Interaction Design Mastery · worth ₹1,50,000

THE MARKET SELLS

UX Design Course · ₹1,00,000

WHAT OTHERS CHARGE

Lakhs, for a single path.

Most education costs lakhs for one subject, with an outcome no one can promise.
 The Gym is ***all four programs, in six months.***

MBA & B-schools

**₹20 to ₹30
lakhs**

Master's degree

**₹40 to ₹60
lakhs**

Design college

**₹15 to ₹20
lakhs**

A lifelong career transformation, for less than the fee of a single semester.

THE MATH IS SIMPLE

A ₹20 LPA role pays for this **in two months.**

MEDIAN OUTCOME FROM PAST GYMS

₹20 LPA

A role within six months of finishing.

TWO MONTHS OF THAT ROLE

Pays it back.

Two months of monthly take-home covers your full investment in the Gym.

NOW ZOOM OUT

A lifelong career transformation ... for less than the fee of a single semester at most colleges or schools.

Most semester fees vanish into a degree that contributes almost nothing to your actual career. This is six months of work that compounds for the next thirty years.

The identity transformation is durable for life. You carry this for the next thirty years.

THE QUESTIONS DESIGNERS ASK BEFORE THEY JOIN

Frequently asked.

"What is the difference between Core, Premium, and Elite?"

All three give you the same six-month Gym ... same phases, tracks, projects, workshops, Discord, and weekly Q&As with me. **Core** is the full Gym, self-driven, on open seats. **Premium** adds my eyes on your work ... personalised roadmap, portfolio reviews, written feedback on every project. **Elite** is the closest seat ... everything in Premium plus 3 dedicated 1:1 calls, bi-weekly check-ins, and call support before every interview. **Premium and Elite are both by interview only ... Core is the only tier on open seats.**

"I do not have a UX background. What if I am a fresher?"

Engineers, MBAs, architects, dentists, animators, freshers ... all part of past Gyms. **Your background is a feature, not a hurdle.** Freshers actually have an edge ... nothing to unlearn.

"I have a portfolio but recruiters aren't responding. Can this fix that?"

Yes ... this is exactly what we fix. **Recruiters hire designer identities, not portfolios.** In six months, the same projects get repackaged through the lens of a real designer, and your visibility goes up at every stage of the recruiter's journey.

"I am in a full-time job. Can I still join?"

Yes. Live calls happen on weekends. Drills, projects and materials run at your own pace through the week. **You don't have to abandon your job** ... you just need consistency.

"Is EMI available?"

Yes, EMI options are available across all three tiers.

"I am an experienced designer. Will this work for me?"

Yes. Your stage just changes the roadmap. At 10 LPA, we work towards 20. At 20, towards 40. At 40, towards leadership. **The blockers at your stage are usually visibility gaps, not skill gaps** ... and that's exactly what we fix.

"I've already done UX courses. How is this different?"

This is a mentorship, not a course. **You get me personally for six months** ... every weekly Q&A, every workshop, every project review. No recorded sessions replacing live ones. No proxy mentors.

"Will UX Anudeep actually be there throughout?"

Every weekly Q&A. Every workshop. Every project review. Discord every day. **Yes ... I'm there.**

"Will I learn AI tools properly?"

Yes ... by using them on real projects. Phase 02 builds fluency in AI design tools and AI-based interaction patterns. Phase 03 takes you into Agentic UX, Generative UI, and end-to-end AI product design. **You become the driver, not dependent on any one tool.**

"When does the cohort start?"

The start date is shared with selected students once admissions close. **Seats are first-come, first-serve.**

More questions? Reach out at **hi@uxanudeep.com** ... Anudeep reads every email himself.

THE ADMISSION PROCESS

Book your seat.

Token → interview → seat. A short, structured admission, run by the team.

STEP • 01 • TOKEN

₹5,000

APPLICATION TOKEN

Begin your application with a ₹5,000 token.
It opens your interview slot.

The token signals intent and reserves your place in the queue. Applications are reviewed in the order they arrive, and an interview is scheduled with the team.

STEP • 02 • THE INTERVIEW

A real conversation with the team.

A short, structured interview before any seat is granted. We talk about your goals, your work, your ambition, and what six months in the Gym will demand of you.

- Scheduled within days of your token
- Held with UX Gym team
- Goals, values, ambition ... the real questions

STEP • 03 • THE SEAT IS YOURS

Settle the balance. Receive the welcome kit.

When the interview confirms the fit, you settle the remaining tuition for your tier. Your seat is locked, your *Gym welcome kit* goes out, and Day Zero begins.

- Tier confirmed ... Core, Premium or Elite
- EMI options available across all tiers
- Welcome kit, Discord access.

TOKEN — INTERVIEW — SEAT

A six-month seat ... earned across three steps.

What I already believe about you ...

You are already a designer.

Six months from now you'll be the one rejecting offers, performing in interviews without prep, telling case studies casually, and shipping AI products with confidence.

THE PATH AHEAD

**Become the AI UX designer
commanding ₹20–40 LPA in six
months.**

A six-month arc that rebuilds your craft, your portfolio and your confidence ... and lands you in rooms where AI products are being shaped, not watched. *Let's make it happen.*
